

DAPHNE FIRGIST G

1. Application

Daphne Firgist G is a fire resistant water-glycol type hydraulic fluid, for use in hydraulic systems where oil type hydraulic fluid is liable to cause ignition.

2. Quality

Water, glycol and contain various additives to provide excellent performance.

3. Characteristic

1. Fire resistance.
2. Excellent anti-wear property.
3. High viscosity index.
4. Low pour point.
5. Good vapor phase and liquid phase rust protection.

4. Typical Specification

				ASTM Method
Density	@ 15 °C	g/cm ³	1.0563	D-1298
Color	ASTM		Red	D-1500
Viscosity	@ 40 °C	mm ² /s	46.7	D-445
	@ 100 °C	mm ² /s	10.1	D-445
Viscosity Index			212	D-2270
Pour Point		°C	-507	D-97
pH			10.0	-
Copper Corrosion	100°Cx3Hrs.		1a	D-130
